2018 HELMET SAFETY, CONCUSSION, GENERAL POLICY & STAFF ACTION PLAN

A. SPECIAL EMPHASIS

The **Lander Tiger** coaching staff condemns any act by a player to deliberately injure an opponent or teammate during a game or practice. The techniques taught to you by the coaching staff are designed to minimize the risk of injury to you, your teammate, and to your opponent.

B. EQUIPMENT AND HEAD GEAR (HELMETS)

The protective equipment issued is the finest available. Helmets are for protection and should not be used in any manner as a weapon against an opponent or teammate. Of particular importance is the football helmet. When used properly, it protects players from head injuries. When used improperly, it no longer serves to protect. The helmet should never be used to deliberately strike or hurt an opponent or teammate.

HELMET WARNING:

Do not strike an opponent with any part of the helmet or facemask. This is a violation of football rules (spearing) and may cause you to suffer severe brain or neck injury, including paralysis or death.

Severe brain or neck injury may also occur accidentally while playing football.

Rule: No player shall deliberately use his helmet to butt or ram an opponent.

Rule: There shall be no spearing or using the helmet as a weapon.

Rule: No player shall intentionally strike an opponent with the crown or top of his helmet.

C. Concussion Action Plan

What we as coaches will do when a concussion is suspected.

- Remove the athlete from play.
- Ensure the athlete is evaluated immediately by an appropriate health care professional.

K. COACHING POLICIES

Your son will be treated fairly and with respect. Our goal is to use football as a tool in becoming a productive member of our society. We will emphasize respect, honesty, accountability, & responsibility in our working with your son. It is important to realize that the coaches are on the same side as your son. When we coach him, we will coach him professionally and very enthusiastically. When he is corrected it will never be personal or insulting, but it may be direct and with purpose. Football is a physical sport and can be a violent game. We are committed to helping your son meet the demands of the game and discover his strengths as well as confronting any weaknesses that may affect his ability to compete at the highest level possible. We do understand our unique relationship with your son and we will never violate the trust you have placed in us.
